## Accessible toilet lock

The **JEFLOCK** Accessible toilet lock is designed especially to comply with new legislation Part M, DDA & BS8300.

The accessible toilet lock operates from the outside with a lever handle to release the roller latch bolt & has a red & white indicator release, in an emergency the coin release can be turned to release the dead bolt. The outside operation is no different to any other bathroom lock & does not require instructions.

The inside lever handle presses down to release the latch bolt & lifts up to throw the dead bolt as illustrated this is an unusual feature & therefore has a sign to read **lift handle to lock**+this message is repeated in Braille.

The unique **JEFLOCK** Accessible toilet lock comes in a complete set. Available in all standard Normbau colours. Metal finishes stainless steel, brass & BMA are also available.

- Lockcase: Satin stainless steel forend & strike plate. Roller bolt latch (less likely to cause injuries or damage to clothing than a normal latch bolt). Separate deadbolt with 78mm centres and 57mm backset
- Furniture: Normbau standard colours 23mm diameter levers
- Bolt through: Metal finishes: Satin stainless steel SSS, Polished stainless steel PSS, Brass, Bronze IBMA 19mm diameter levers
- Secure Fixings:
- Lettering: Black letters on white background & Braille to read **lift handle to lock**+
- Extras: Double lipped strike plate for double action doors
